

Bubble Faeries

Bubble Faeries are a part of our everyday life.

Bubble Fairies come out when we need them or call upon them. In the morning they can help you wake up with a smile and bring magic into your day. At night to make sure you sleep good, bringing you happy dreams and pixie dust to help all your dreams come true!

Bubble Faeries help make sure that you feel safe, supported and loved.

How do I call the Bubble Faeries?

In order to call a bubble fairy you have to see yourself in a bubble of white light. See your body sitting in a bubble and ask your bubble fairy to come play. The bubble faeries only play when we have our bubbles up just like them!

Ask

- **To help you always feel safe, loved and supported.**
- **To have only fun loving dreams.**
- **For good things to come your way.**
- **Only having loving white energy around you.**

Say thank you, giving gratitude is always liked by the fairies.

Ways to Play

- You can spend a minute or so doing this unless they want to play then you can make whole game out of it!
- You can hunt for the Gnomes and Fairies at the park. And meet friends!
- You can purchase Fairy & Gnome Doors to tape to the wall and knock on their door!!

It's all about fun and play!!

NOTE: If the child doesn't want to play or understand yet you as the parent or guardian can see the child in a bubble and hold that energy for them. It is just energy it is just as powerful when you do it for them.
